

Thanks to our state of art technologies, we are proud to present a pioneering range of articles, that anticipate the future.

Garbage bags made in eco film PLART™ with a low impact to the environment, the standards resistance to elongation and perforation are well above normal; all bags are realised with no leak bottom star seal. Our bags for the household and d.i.y., are the perfect response to the most demanding consumers.

Available in different sizes for the house, the garage and the garden, are supplied with draw string or closing laces.

Complete the range a line of 100% biodegradable bags for the separate collecting of the humid waste.
